

SEMINARS

- 2012 -

FRIDAY'S 2012 (20/04-15/6-13/7-10/8)

“SOLAR POOL HEATING WITH HELIOLCOL”

- > General concepts of solar thermal energy
- > Heliocol solar system components
- > Operating principles
- >Sizing
- >System design.and installation
- >FAQ
- >Open discussion

FRIDAY'S 2012 (27/04-22/6-20/7-24/8)

“SOLAR DOMESTIC HOT WATER WITH ECOFLARE”

- > General concepts of solar thermal energy
- >The revolution in polymer flat plate collectors with high efficiency
- >Comparison with conventional technologies
- >Solar System Components Eco-Flare
- > Operating principles
- > Calculation,design and installation
- >FAQ
- >Open discussion

FRIDAY'S 2012 (04/05-29/6-27/7-31/8)

“ENERGY SAVING PROJECTS”

- > Dealing with solar energy saving projects
- > Industrial applications
- > Institutional applications (clubs / hotels / hospitals)
- > Sustainable buildings applications. (Green building)
- > Feasibility
- >Design
- >Development and presentation

TO CONSIDER

- > The seminars will be conducted between 10 to 16 hrs. Central office, Asamblea 643, Villa Lynch, General San Martin.
- > The value of each day is \$ 380, but in case you want to attend all three we offer a promotional pack to \$ 990.
